To All Tenants:

Due to the lack of toilet paper in stores and the extra use of disinfectant wipes, we wanted to send a reminder about what should not be flushed in toilets. Toilets are meant to handle small amounts of toilet paper only. Just because a product says it is “flushable”, does not mean it is.

Do not flush items including, but not limited to:

- Paper towels
- Disposable diapers or diaper wipes
- Tampons and tampon applicators
- Sanitary napkins, mini or maxi pads
- Cotton balls and swabs
- Condoms
- Cleaning wipes of any kind
- Facial tissues or facial wipes
- Bandages and bandage wrappings
- Automotive fluids
- Paint, solvents, sealants, and thinners
- Poisons and hazardous waste
- Cigarette butts
- Medications
- Fats, oils, and grease

Per your lease, tenants are responsible for all service and/or parts related to fixing a problem resulting from throwing something in the toilet, including purchasing a new toilet if necessary. The same rules apply to the sink and shower drains. No objects should be put in the drains.

Thank you for your cooperation!
